# REGULATIONS

**Applications.**—Applications for original establishment of service must be made on the Telephone Company's standard application forms. Requests from subscribers for additional service, equipment, etc., may be made orally or in writing, and upon approval, or installation of the service, become a part of the original application. An applicant for service must pay all previous indebtedness to the Company for telephone service before service will be furnished.

**Establishment of Credit.**—In order to insure the payment of all charges due for its service, the Telephone Company may require any subscriber to establish and maintain his credit in one of the following ways:

- (1) By furnishing references acceptable to the Telephone Company.
- (2) By providing a suitable guarantee in writing, in form prescribed by the Telephone Company.
- (3) By means of a cash deposit.

The Telephone Company may require the subscriber to increase the amount of the deposit at any time if, in its opinion, the charges billed against the subscriber are found to warrant such an increase.

Interest at the rate of not less than 5% per annum shall be paid by the Company on all deposits made for the purpose of establishing credit.

Service may be discontinued for failure to establish credit, as authorized above, within five days after the Company has served or mailed notice requiring the subscriber so to do. Where service has been discontinued for failure to establish credit as authorized by these Regulations, the regular restoral charge will be made and collected by the Company.

**Ownership and Use of the Equipment.**—Equipment, instruments and lines on subscriber's premises, furnished by the Telephone Company, shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, or repairing the instruments and lines or for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such instruments and lines. Such equipment is not to be used for performing any part of the work of transmitting, delivering or collecting any telephone message where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Telephone Company.

Subscribers must not use or permit to be used any electrical or mechanical apparatus or device in connection with the equipment or facilities furnished by the Telephone Company without the written consent of the Telephone Company, or permit the attachment of any advertising devices, except upon the approval of the Telephone Company. In case any instrument, apparatus, or device of any kind other than that furnished or approved by the Telephone Company is attached to or connected with any part of the Telephone Company's property, the Telephone Company shall have the right to remove such instruments, apparatus, or devices or to suspend the service so long as such instruments, apparatus, or devices are so attached or connected, or to terminate the service.

**Interruptions to Service.**—When requested by the subscriber, if service is interrupted for more than 24 hours, and for causes other than the negligence or willful act of the subscriber, an allowance shall be made, at

the minimum rate for the telephone facilities and class of service affected by the interruption, for such time as the interruption continues. No other liability shall attach to the Company in consideration of such service interruption.

**Telephone Numbers.**—The subscriber has no property right in the telephone number or any right to continuance of service through any particular central office. The Telephone Company may change the telephone number or the central office designation, or both, of a subscriber whenever it deems it desirable in the conduct of its business so to do.

**Telephone Directories.**—Directories regularly furnished to subscribers are the property of the Telephone Company, are loaned to subscribers only as an aid to the use of the telephone service, and are to be returned to the Telephone Company upon request or when new directories are issued. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories lost, destroyed, defaced, or mutilated while in possession of subscriber.

No liability arising from errors or omissions in the making up or printing of its directories shall attach to the company except in the case of charge listings, in connection with which its liability shall be limited to a refund at the monthly rate for each listing for the time an error or omission continues after reasonable notice in writing to the Company.

**Use of Service.**—Subscriber telephone service is furnished only for use by the subscriber, his family, employees, or business associates, or persons residing in the subscriber's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a subscriber's residential premises. The Telephone Company has the right to refuse to install subscriber service or to permit such service to remain on premises of a public or semi-public character when the instrument is so located that the public in general or patrons of the subscriber may make use of the service.

**Payment for Service.**—The subscriber is required to pay, in accordance with the Telephone Company's established tariffs, collection and billing practices, all charges for exchange service and equipment, and for all toll messages or service rendered to his station, including all toll messages on which the charges have been reversed and accepted by any party at his station. All bills are due when rendered and are payable at the Telephone Company's business offices.

In the event that any sum due (except as provided below) is not paid on or before the 14th day after the issuance of the bill, a written notice may be sent to the subscriber, calling attention to the fact that the amount is due; and, if payment is not made within seven days thereafter, the Company may deny service without further notice.

When the service of a subscriber has been denied in accordance with the preceding paragraphs, but the service has not been terminated or the order to remove the service has not been completed, if such service is restored, a Restoral of Service Charge of \$1.00 will be made. In case service has been denied, in addition to the restoral of service charge, the subscriber will be required to pay all service charges up to the time of restoral of service. Subsequent to the completion of an order to terminate the service, it will be reestablished only upon the basis of a new service application.

# INFORMATION ABOUT TELEPHONE SERVICE

## How to Use the Telephone

When using the telephone speak distinctly in a moderate tone of voice.

To recall the operator on a Common Battery telephone (one where you signal the operator by merely lifting the receiver from the hook) on a connection, move the receiver hook up and down slowly three or four times.

On a Magneto telephone (one where you signal the operator by turning a crank) if you wish to recall the operator hang up the receiver and give the handle one quick turn.

## Party Lines

All subscribers on the line have equal rights; for that reason calls should be reasonably limited in length of conversation. To make for efficient service and to prevent annoyance to others on the line the following rules should be observed:

When you wish to call, remove the receiver and listen. If the line is in use, restore the receiver carefully and quietly to the hook and wait for those using the line to finish.

Always answer your own signal. If there is any confusion about the rings, report the facts promptly to the Chief Operator.

## Telephone Service Calls

Call "Information" for names not listed in this directory.

Call "Chief Operator" to report unsatisfactory handling of your calls.

Call "Repair Service" when your telephone is out of order.

Call the Business Office, Main 230, for all matters relating to new telephone service, removals, termination of service, directory listings, adjustments of accounts, collection of bills, etc.

## Telegrams by Telephone

You may telephone telegrams, cablegrams or radiograms to the Western Union Telegraph Company.

When calling the telegraph company, follow the instructions shown under its listing in this directory.

By arrangement with the Western Union Telegraph Company, the charges for Telegraph messages sent by telephone will appear on your monthly telephone bill. On messages telephoned from public coin box telephones, you will be requested to deposit the telegraph charges in the coin box.

# LONG DISTANCE TELEPHONE SERVICE

**Station-to-Station Service**—A station-to-station call is a call to a telephone at an out of town point on which the person calling will talk with anyone who answers at that telephone. Tell the Long Distance operator you will talk with "anyone who answers."

Reduced rates are in effect during the evening and night periods as follows:

Day Rates—4:30 A. M. to 7:00 P. M.

Evening Rates—7:00 P. M. to 8:30 P. M.

Night Rates—8:30 P. M. to 4:30 A. M.

During reduced rate periods no station-to-station rate of less than 35c is reduced nor any rate of more than 35c reduced below 35c.

**Person-to-Person Service**—A person-to-person call is a call to a particular person or a particular extension telephone on a private switchboard at an out of town point. The rates for this service are the same for all hours and are somewhat higher than corresponding station-to-station day rates.

**Reversed Charges**—Charges may be reversed on all person-to-person and station-to-station calls. Where the station rate is less than 25c the rate for reversed charge station-to-station service is higher than the station-to-station rate.

**Report Charge**—A report charge is made if communication cannot be established on person-to-person or Reversed Charge calls for reasons beyond the Company's control.

**Call By Number**—Calling by number speeds your call. Give the Long Distance operator the name of the place and the telephone number you are calling. If you are making a person-to-person call also give the name of the person with whom you wish to talk. If you do not know the number give the name and address and the number will be furnished by the operator during the completion of the call so that you may make a note of it for future use.

## RATES TO SOME LONG DISTANCE POINTS

The following table shows the Day Station-to-Station rates to some long distance points frequently called from Mokenoe. The initial period in all cases is three minutes with the exceptions of rates of 25c or less where the initial period is five minutes.

Blue Island .....	\$0.30	Grant Park .....	\$0.10
Champaign .....	0.50	Kankakee .....	0.10
Chicago .....	0.45	Watseka .....	0.25
Danville .....	0.50		

For rates not shown in this schedule, or for other information regarding toll connections call "Long Distance."

*The rates herein stated are the legal rates of the Company as on file with the Illinois Commerce Commission May 1, 1934.*

# Your telephone will "take" you almost anywhere

You are within speaking distance of persons miles away — across cities, states and even in countries beyond an ocean — by telephone! A distant friend, a relative, an absent wife or husband; you can visit them almost anywhere by telephone. The charges are so moderate that regular visits, even over great distances, are always worth far more than they cost.

*It is our aim to furnish the best  
possible telephone service at the  
lowest possible cost*

# GLEANER COAL & LUMBER CO.

# Numbers Frequently Called

## *Local Numbers*

You will find this space the most convenient place to list numbers which you call frequently.

Telephone numbers of local and out-of-town subscribers that cannot be found in this directory may be obtained by calling "Information."

NAME	EXCHANGE	NUMBER

Please do not copy old lists of numbers on to this page without first making sure that they are correct by checking local numbers with the printed listings in this issue of the directory and by calling "Information" on the out-of-town exchanges.

## *Out-of-Town Numbers*

NAME	CITY OR TOWN	NUMBER

# SEE THE *NEW* WORLD'S FAIR OF 1934

---

NEW ATTRACTIONS include more than a dozen picturesque foreign villages, big additions to the scientific and industrial exhibits, unique water spectacles over the lagoons and a new Midway located on Northerly Island.

THE WORLD'S FAIR OF 1934 seems a different place to those who saw it last year, yet it has retained most of the popular attractions, including the scientific and industrial.

---

## 84 MILES OF ATTRACTIONS

A leaning tower of the 13th century is in the Italian village. There is a Swiss village at the foot of snow-crueted Alps, "Schwarzwalder Dorf"—the German Black Forest village, Spanish village, Tunisian village, desert "Oasis," old English village, American colonial village, Irish village, and Belgian village. The new "Streets of Paris" presents a wholesome view of Montmartre. On the Midway is "The Streets of Shanghai."

Many additions have been made to the science displays which attracted so much interest last year. There are hundreds of acres of floor space filled with marvels showing in action how science works.

New buildings house new industrial exhibits. Some of these are complete expositions in themselves with raw materials actually being processed and manufactured into finished products.

Free musical entertainment of the highest order is a feature of this year's Fair. The lagoon opera stage is the scene of opera, concert, famous bands and orchestras, individual soloists, stage and radio stars.

An array of restaurants and cafés of every style, catering to every taste and purse are there. You will find sandwich stands convenient to every part of the grounds and picnic places by the lake where you may eat your picnic lunch.

All the public comfort stations have been taken over by the management and are free.

Take your vacation at the new World's Fair—a vacation that costs less than many another you might take. This one is worth more than any other in dividends throughout their lives to young and old.

### *An Extension Telephone?*

An extra telephone instrument connected to your present line is an extension telephone. It costs but a small additional sum and may be located in a different part of the house than the telephone you have now.

In the kitchen an extension enables you to both make and answer calls without leaving the room or deserting the task which you happen to be doing.

In the bedrooms you may telephone in privacy and comfort day or night with an extension telephone.

Our Business Office will arrange for prompt installation or any telephone employee will gladly take your order.
